# BRITISH STATESMEN DROWNED

# GERARD NAMES RULERS UNITED STATES

# **INDUSTRIALISTS** AND FINANCIERS ARE REAL RULERS

# FORMER AMBASSADOR TO GERMANY ELABORATES ON RECENT STATEMENT

NEW YORK, Aug. 21.-(AP)-In the opinion of James W. Gerard, former ambassa dor to Germany, 59 men "rule the United States."

Mr. Gerard compiled a list of these men for today's New York Times, which askhim to amplify a sentence in a pamphlet he wrote indorsing the crusade of Viscount Rothermers and Lord Beavorbrook for British empire free trade and high protec-tion. In that pamphlet he wrote: "Give the 40 men who rule the United States ten years for the development of this industrial empire (the British empire) and no country on earth could approach it in per capita wealth."

Explaining why he, as an American, should write on the subject, Mr. Gerard wrote: "I offer as my excuse the interest that America, in common with all the world, has in the preservation of British prosperity."

\$200 checks from Jack Zuta, slain vice lord, in 1926. Senator Start stated that he received the checks in October, 1923, as fees for representing Zuta in litigation over an automobile accident.

The list includes leaders in American finance, industry, the amusement field and journalism, but omits President Hoover and all others holding state and national offices save Secretary Mellon.

Mr. Gerard explains the actual "power behind the throne" is wielded by men whose wealth and important industrial positions in the nation give them a permanent influence in American life. Statesmen, he said, are usually shorn of most of their power when they retire.

The list in the order given by Mr. Gerard follows:

John D. Rockefeller, Jr.

Andrew W. Mellon.

J. P. Morgan.

George F. Baker, banker.

John D. Ryan, copper magnate.

Walter C. Teagle, president of the Standard Oil company of New Jersey.

Henry Ford.

Match New York Central railroad to be that and pants of a business suit. Papers and cards in the coat pockets indicated the victim was Lipp.

Investigation indicated the victim fell from an Eastbound New York Central train which left Cincinnati yesterday afternoon and provided the provided Mr. Gerard explains the actual

# SEEK ASCERTAIN FINANCIAL NEEDS DROUGHT RELIEF

# PRESIDENT HOOVER CALLS CONFERENCE STATE BANK-ERS TO MAKE PLANS

WASHINGTON, Aug. 21.—(P)— Secking early definition of the financial program involved in the drought relief organization. Presdent Hoover will confer next Tuesday with banking representatives on the state relief committees.

A call for this conference to be held at the White House went to the drought states late yesterday.

Meanwhile, following the chan-nels through which Mr. Hoover di-rected the 1927 Mississippi flood relief, plans went forward today for establishment of state or local credit corporation to arrange loans to farmers through intermediate cred it banks where local banks are unable or unwilling to carry the fi nancial load.

The maximum interest which the credit corporation would be permit ted to charge farmers, under the tentative plan proposed would be 6 per cent. This is 2 per cent more than the interest charged by the intermediate credit banks, to which the loans would be turned over. Under present plans loans would lrowing \$400 from Jack Zuta, murbe granted farmers on easy securdered Chicago vice lord, but says ity with the endorsement of the credit agencies. In event the bank to Zuta and farmers on easy securdered Chicago vice lord, but says that he never extended any favore credit agencies. In event the bank to Zuta uy with the endorsement of the credit agencies. In event the banking representatives of the state committees agree upon the proposal, the federal farm loan board which which supervises intermediate credit banks, will supervise the crea-

tion of the credit agencies.

# RFLEASE FIGURES PROHIBITION WORK

# COMPLETE REPORT OF ACTI-VITIES MADE BY DIRECTOR WOODCOCK

WASHINGTON, Aug. 21.—(P)— The close of the first month of prohibition enforcement under the department of justice found the number of cases awaiting disposi-tion on the dockets of the federal

courts increased by 324.

This was revealed today by the first of a series of monthly reports to be issued by Prohibition Director Amos W. W. Woodcock. It covered the month of July and gave figures for companying the property of the series gave figures for comparable previous periods only with respect to cases on the dockets.

Arrests for the month totaled 6,524, cases bound over to the grand jury by United States Commissioners 3,828; cases placed on the docket, 1,918; convictions 1,-392; acquitals and cases not prossed 202; unfinished cases on the dockets July 31, 22,497.

The average of jail sentences imposed was 51.26 days and the

Explains Loan YACHT ISLANDER SWEPT ON ROCKS CORNWALL COAST SIX PERSONS, INCLUDING ONE WOMAN, BELIEVED LOST; ALL PROMINENT FOWEY, Cornwall, Eng.,

ug. 21.—(A)—Commodore Henry Douglas King, conservative member of parliament, brilliant soldier and one-time aide-de-camp to King George, was believed to have met death with probably half a dozen others aboard the 22-ton motor yacht Islander wrecked here in the night. One woman, two children and a well known naval surgeon were believed aboard the vessel when it went to pieces after going on the rocks off the Cornwall coast at Lantivet Bay. Definite knowledge of the makeup of the yachting party still was lacking this evening. That Commodore King changed his mind about inviting some fellow-members of parliament was be-lieved. This apparently spared their lives, since all on board the Islander were lost, according to lifeguards who battled desperately in darkness under the 265-foot cliff where the tragedy of the English Channel was enacted, in efforts to tescue some of those aboard.

When a lifeline finally was shot across the yacht there seemed no-hody on the craft to catch it. Dar-ing coastguardsmen, lowered from the brink of the rock, said they heard a woman scream in a cabin The guardsmen could not contrive to get aboard the disabled vessel. Late today the police reported that the hodies of two young chil-dren had been washed ashore near the scene of the wreck. At that

time the authorities expressed the fear the death toll would reach eight. Much of the night and

seed loans to drought stricken farmers. Under the terms of the act, however, it can be used only in Virginia, Ohio, Indana, Missouri and Montana of the drought states.

The emergency feed and livestock railroad freight rates now in effect in the East and South will be extended to western drought states on Friday.

# Believes Firmly In Virtue Woman Mind Changing

KANSAS CITY, Aug. 21.—(P)

—R. N. Ford is among those who profess to see naught but virtue in this business of women changing their minds.

Ford's car was crowded into a curb last night by one containing a man and a woman.

"That's the man that hit me, dear," the woman exclaimed.

Her companion immediately organized himself into a boarding party and came over the side with a revolver in his hand.

Ford gazed into the open-face artillery and assumed, he said, what he deemed the proper expression for a man who would never stoop to strike a strange woman.

Suddenly the woman exclaimed again:

"Oh no, honey that's not

The above is R. L. Waugh, circulator of the Daily Sun in the Corsicana oil fields. Mr. Waugh's photograph was taken as he was leaving for the oil fields with two sacks well filled with copies of the Daily Sun.

# The Corsicana Daily Sun

# Now Delivered With House to House Distribution in the Oil Fields

The Corsicana Daily Sun is now being delivered every evening after it comes from the press throughout the Corsicana oil fields, each of the several hundred subscribers getting his paper delivered to his office or door from twelve to eighteen hours earlier than any other newspaper.

The oil fraternity has always been friendly to the Daily Sun, and this paper has and is enjoying the loyal patronage of hundreds of oil operators, field men, drillers, gaugers, and officials of the major oil companies.

There is no argument that can be put up to convince the intelligent subscribers what they are getting by taking the Daily Sun, as it speaks for itself every evening.

ritory and we will leave the verdict to those who know the best.

Just compare the Daily Sun with any other newspaper coming into this ter-

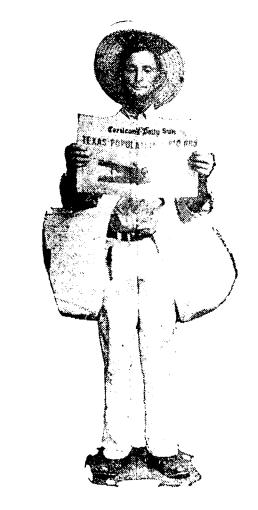

Our oil field circulator, Mr. R. L. Waugh has worked up a growing list of subscribers in the oil field, and personally delivers the Daily Sun to his many subscribers every evening the paper is printed. Since permanent good roads are being put down in the county, the Daily Sun has other important additional territory to be worked in the same manner as the local oil field is now being served.

The subscriber is getting from fourte en to twenty pages of news every day, brimming full of news from everywhere, live and attractive syndicated featurescomics, markets and other entertaining, educational and constructive features that will compare with the larger city newspapers.

# MISSISSIPPI VALLEY AND SOUTHWESTERN RATES ARE REDUCED

EXPORT RATES TO TEXAS SEAPORTS ALTERED WITH SHORT HAUL DECREASES

railroad rates on cotton was ordered today by the inter-

10.

In its main features the order left practically undisturbed the present cotton rates applying to the Southeast quarter of the country, but reduced rates applying to the Mississippi valley to the point of equalizing them with the eastern rates. It provided for cotton rates in the Southwest on a basis ten percent higher that that applying in Southeast; and it altered the export rates on cotton to Texas seaports in such fashion as to decrease the charges levied for short hauls and increase those appuying to long ones. It required also the equalization of Mobile with New Orleans in the matter of cotton export rates.

which is which "He said he might sue the Bambergers, that the question of parentage is still open before the commission laid lown fixed rates of 18 cents per 100 pounds for distances of 5 miles; 35 cents for distances of 50; \$2 cents for distances of 500; \$1.00 for distances of 1,000 miles, with proportionate amounts for intervening disances.

to put it on approximately the came level as obtained in the remander of southern territory."

For movements through the Couthwestern states, the separate mileage scale was approximately 10 per cent higher than that set for the Mississippi valley. A special arrangement was made for shipments to Houston, Galveston and Texas City, through which cotton ordinarily moves in quantity for export.

At present the largest portion of

ton ordinarily moves in quantity for export.

At present the largest portion of Texas producing territory pays a flat 81 cents for cotton shipments to the ports. A scale ordered by the commission in connection with the decision fixes a rate of 81 cents to the Texas ports for cotton shipments for cotton shipments to the Texas ports for cotton shipments for cotton shipments to the Texas ports for cotton shipments for cotton sh

the commission in connection with the decision fixes a rate of 81 cents to the Texas ports for cotton shipped 325 miles; 91 cents for 500 miles; and 97 cents for 600 1 iles. It is expected that "the new rates will produce a reduction in the carrier's revenue but it in mpossible to say how much," the commission observed as to this portion of its adjustment.

Rates from Oklahoma.

In the matter of port relationship, carriers serving both Mobile and New Orleans were notified to refrain form giving any special preference to shipments reaching New Orleans.

Application of the new mileage is intended to remove unjust discriminations which it was held Mobile had sustained in cotton traffic. In the preparation of the new schedules, railroads were notified to that they would be allowed to make equal rates to both Mobile and New Orleans from valley points where distances were unequal to the extent of 25 per cent.

On long staple cotton grown in the western irrigated zone of Arizona, New Mexico and California, the commission firm was the carriers' purpose to get a reconsideration and reversal of the interstate commerce commission to doay for an extension of time in which to n into effect new rate schedules recently orderby by the commission to govern grain traffic.

The petition gave notice that it was the carriers' purpose to get a reconsideration and reversal of the original grain decision.

Whether the petition for reconsideration is granted or not, the petition for reconsideration is granted or not, the proposition is required to the task of writing the impossible for the railroads to commlete the task of writing the impossible for the railroads to commerce the revision to become effective.

At least ninety days more will to be required for the clerical operations, and the commission was asked to consider this.

The railroad's opposition is founded partly on the anticipated annual loss of \$13.000,000 in revenue to the proposition o

the extent of 25 per cent.

On long staple cotton grown in the western irrigated zone of Arizona, New Mexico and California, the commission fixed the southwestern scale. The decision resulted from proceedings filed by co-

# FAMOUS CHICAGO TANGLE OF BABIES SETTLED AND BAMBERGERS GIVE UP BOY

fourths of the parents, at least, thought they were the right homes.

The central figures in the famous baby switching case were exchanged last night after Charles Bamberger and his wife had decided the Watkinses were right in contending that the two families had the wrong babies.

Under the watchful eye of Dr. statet commerce commission sioner, Mrs. Bamberger handed to be effective next January over the infant boy she has cared or for the last six weeks and Mrs.

disances.

By differentials varying the scales, it was arranged to meet the conditions of southern, northern and western shipments.

Equalization Sought.

"The standard," the commission observed, "is designed as nearly as may be to reduce the Mississippi valley cotton rate level only enough to put it on approximately the came level as obtained in the remander be glad to know that she is doing the scales of the family will be glad to know that she is doing the scales of the family will be glad to know that she is doing the scales of the same of the scales of the same of the scales of the same of the scales of th

CHICAGO, Aug. 20.—(P)— The ter when, on preparing to take the Watkins and Bamberger babies babies home, the parents discover-were in new homes today and three ed the name "Watkins" on the baby given the Bambergers and "Bam-berger" on the baby given the

Watkinses. There followed blood tests, fingerprint tests, bone tests and court actions. A committee of experts headed by Dr. Kegel, decided the bables were in the wrong families, but the Bambergers insisted they had their own child. Dr. Kegel said the original mixup happened in mis-marking the clothing of the

The Bambergers, after reviewing the findings of the medical board of experts finally decided yesterday to give up the baby the Watkinses claimed as their own.

Mrs. Watkins appeared elated when the Bambergers, their attor-ny and Dr. Kegel appeared last night. "Oh, I've always wanted that baby," she said. "It's mine. But how will we do it?"

Mrs. Bamberger replied by starting to undress the infant she held in her lop. Mrs. Watkins followed suit and it was not long before the women held their new babies. "This one weighs more than the other cne, I'll have to learn all over again how to hold him," joked Mrs. Bamberger, but she looked over at the little boy she had fond-

led for six weeks and there were

IT'S WISE TO GHAROLE CHOOSE A SIX

# Ammouncing a new production record

# 2,000,000 Chevrolet Sixes now on the road

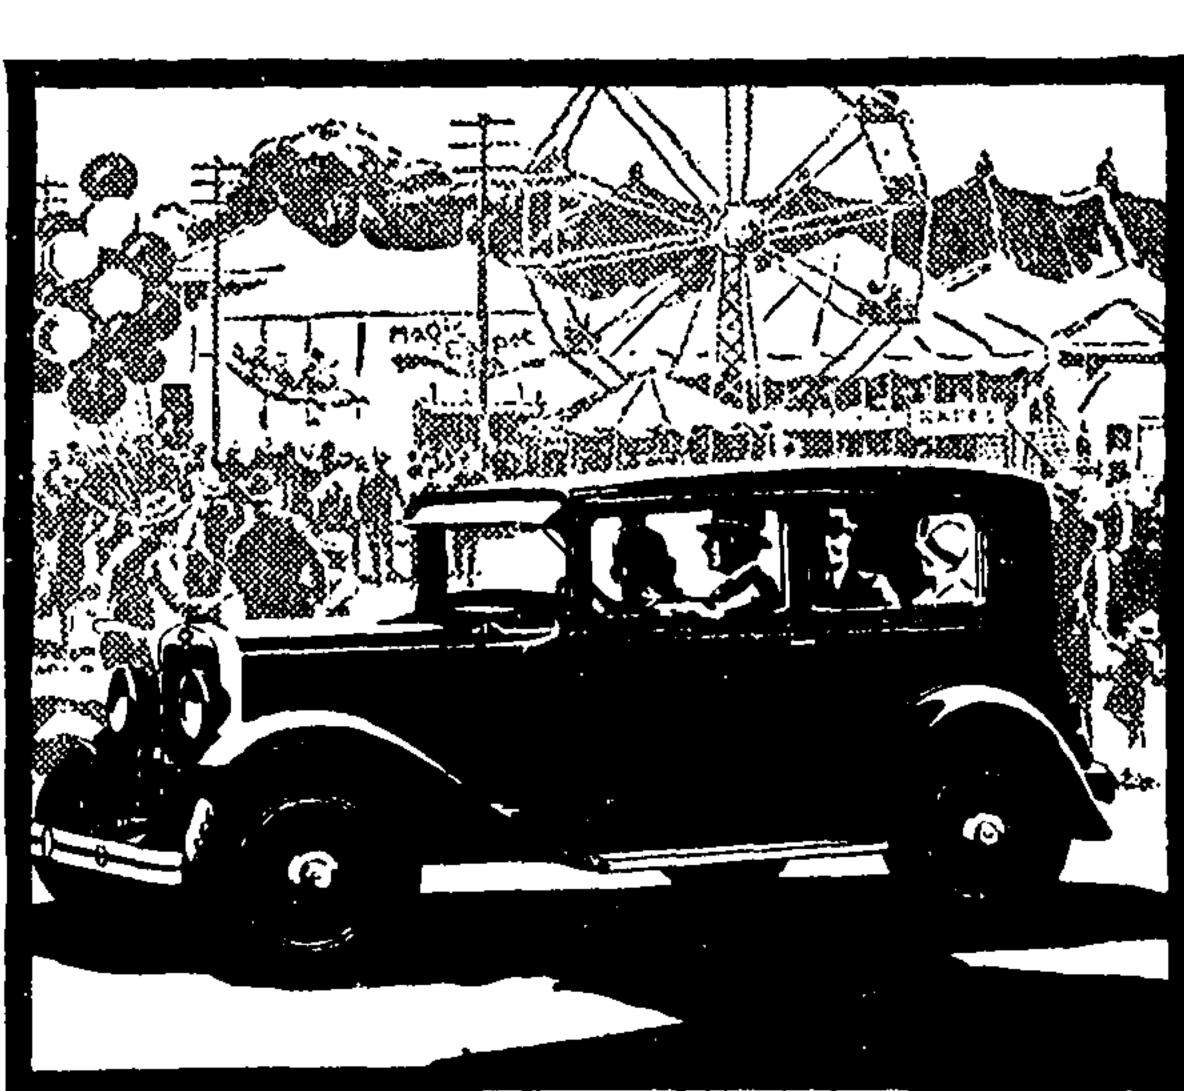

Since January, 1929, Chevrolet has produced and sold over 2,000,000 six-cylinder automobiles nearly five times as many as any other manufacturer has ever built in an equal length of time.

These 2,000,000 buyers have chosen Chevrolet because it offers many desirable qualities not obtainable in any other car so low in price—

-the smoothness, silence and flexibility of a modern six-cylinder valve-in-head engine—the greater comfort and roadability of a modern, full-length chassis—and the style, safety and distinction of bodies by Fisher.

Yet, despite these fine car advantages, the Chevrolet Six is unusually economical. Its gas, oil,

WASHINGTON. Aug. 19.—(P)—The battle for control of congress was on in carnest today with leading spokesmen of the republican and democratic parties recording their views of the general such such that the contests are to be decided at the November elections

be decided at the November elections.

Jouett Shouse, chairman of the democratic national executive committee, placed the democratic side before the country in a radio address last night, in which the administration was charged with errors both of omission and commission. An immediate defense and counter-attack was issued in a statement to the press by John a statement to the press by John Q. Tilson of Connecticut, republican floor leader in the house. Robert H. Lucas, executive director of the republican national committee already was on record with condemnation of the democratic

condemnation of the democratic position.
Shouse's attack centered on the tariff bill, farm relief and business depression. President Hoover, in the speech, was made to share responsibility with congress for the form taken by the tariff bill. He was singled out also for individual criticism in connection with the fam relief legislation adopted the farm relief legislation adopted and for failure to check in ad-vance the depression which set in

last fall.

Tilson termed the democratic speech "an amazing collection of half truths, misstatements, abuse

704

EXPECTED TO BRING

James Max Hallmark, as he pass ed his twenty-third day aloft among the branches of a tree on

half truths, misstatements, abuse and criticism."

Fails Suggest Cure
Shouse, said Tlison, "failed to suggest a cure for a single thing he criticized. Instead of offering a constructive program as his listeners had every right to expect him to do at this time, he presented the regrettable spectacle of the at least verbal leader of a political party literally gloating over the economic distress of the country."

country."

The democratic leader asserted the people of the country "are arising to a political overthrow that may assure the proportions of

that may assure the proportions of a cataclysm."

Tilson replied that overthrow of the republican party would be a "cataclysm" because the party had "a definite, well considered administrative and legislative program which it is carrying forward to completion despite the determined obstructive tactics of the democrats"

among the branches of a tree on West First avenue between Eleventh and Twelfth streets Thursday morning at 9 o'clock, declared his intention of staying aloft at least 1200 hours, or practically twice the among the branches of a tree on West First avenue between Eleventh and Twelfth streets Thursday morning at 9 o'clock, declared his intention of staying aloft at least 1200 hours, or practically twice the among the branches of a tree on West First avenue between Eleventh and Twelfth streets Thursday morning at 9 o'clock, declared his intention of staying aloft at least 1200 hours, or practically twice the among the branches of a tree on West First avenue between Eleventh and Twelfth streets Thursday morning at 9 o'clock, declared his intention of staying aloft at least 1200 hours, or practically twice the among the branches of a tree on West First avenue between Eleventh and Twelfth streets Thursday morning at 9 o'clock, declared his intention of staying aloft at least 1200 hours, or practically twice the among the branches of a tree on West First avenue between Eleventh and Twelfth streets Thursday morning at 9 o'clock, declared his intention of staying aloft at least 1200 hours, or practically twice the among the branches of a tree of the stay of the properties of the least 1200 hours or practically twice the among the branches of a tree of the properties of the properties of the least 1200 hours or practically twice the among the branches of a tree of the properties of the least 1200 hours or practically twice the among the branches of a tree of the properties of the least 1200 hours or practically twice the among the branches of a tree of the least 1200 hours or practically twice the properti

to completion despite the determined obstructive tactics of the democrats."

Shouse said farm products had declined in price steadily since passage of the farm act; he contrasted the Hoover 1928 campaign speeches assuring continuation of prosperity under republican rule, with the unemployment and depressed business obtaining within the year. He blamed the president for not warning against speculation while secretary of commerce and president-elect. Conceding that after the crash Mr. Hoover "did perhaps all any man could to try to effect on adjustment of the did perhaps all any man could to try to effect on adjustment of the did perhaps all any man could to try to effect on adjustment of the did perhaps all any man could to try to effect on adjustment of the did perhaps all any man could to try to effect on adjustment of the did perhaps all any man could to try to effect on adjustment of the did perhaps all any man could the try to effect on adjustment of the did perhaps all any man could the try to effect on adjustment of the did perhaps all any man could the try to effect on adjustment of the democrats. Young Hallmark, not to be induced from his perch by ordinary among tike carnivals, shows or fires, stated that he would more than likely fall to the lure of football, and would descend in time for the first game to be played by the Corsicana high school football leam.

Herbert Myers, his opponent for tree sitting honors, perched in a sycamore tree on West Second avenue, is practically 48 hours behind young Hallmark. His stay aloft, the correction of the decent of the dece "did perhaps all any man could to try to effect an adjustment of conditions." Shouse observed that "history is apt to record "that he locked the barn door after the horse was stolen."

He said President Hoover could he had been adversely to the conditions and more than likely the endurance at the probability of the toriff "raid" term will be concluded in time.

He said President Hoover could have checked the tariff "raid," at any time during the long period the revision was under congressional consideration but had failed to speak the word which would have "corrected the intolerable features of this unholy and excuseless piece of legislation."

Pointing to Shouse's assertion that the democrats would endeavor to respond to the people's "cries" or particular than likely the endurance atherent will be concluded in time for Herbert to enroll for the term.

# MAKE THIS MODEL AT HOME

The Corsicana Daily Sun 15c Practical Pattern PATTERN 1884

The dress and bloomers may be obtained only in sizes 4, 6, 8 and 10. Size 4 requires 21-4 yards of 36-inch material.

No dressmaking experience is necessary to make this model with our pattern. Yardage for every size, and simple, exact instruc-tions are given.

Send FIFTEEN CENTS (15c) in coins carefully wrapped, or stamps for each pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE

Our BOOK of PATTERNS for adults and children, also transfer patterns, is FIFTEEN CENTS, but only TEN CENTS when ordored with a pattern. Address all mail and orders to The Corsicana Daily Sun Pattern Department, 243 West 17th St., New York City.

# HAMPTON LEADS

William Haines' latest talking comedy, "Way Out West," will open Friday at the Palace theatre with a cast which includes Leila Hyams, Polly Moran, Cliff Edwards, Frances X. Bushman, Jr., Vera Marsh, Charles Middleton, Jack Pennick, Buddy Roosevelt and Jay Wilsey. The story, which is the work of Byron Morgan and Alfred Block, was directed by Fred Niblo and is the veteran director's first comedy in seven lycars.

# CITATIONS ISSUED **ALLEGED VIOLATION** PRORATION ORDERS

The following petition, signed by ne officials of the Humble base-ull club, was presented at the pal meeting of the Navarro punty Amateur Baseball league and of directors meeting held

les.
The company officials were ordered to appear before the commission Sept. 8 to show cause why they should not be fined for viola-tions of the agreement.

The citations were issued at the

request of Ray M. Collins, state proration umpire.

Ed Hicks, Jr., secretary of the commission, said he did not believe that the alleged violations by pro-duction of more than the stated

with the Magnolia only two games ahead, and
"Whereas, the Bazette and Emhouse teams were really not legally entitled to vote in declaring a winner of the second half, since they announced that they were both being compelled to withdraw from the league, and,
"Whereas, the Spalding trophy for the league championship will in all probability not be awarded, since the league has not fulfilled a signed contract which specified the playing of at least 40 games, and.

Bed Hicks, Jr., secretary of the commission, said he did not believe that the alleged violations by production of more than the stated amount of petroleum were wilful on the part of most of the operators.

After announcing abaddonment of a threatened receivership action against the Oil and Royalty Company headed by C. C. Julian for purported violation of the proration orders, the attorney general's office announced that Julian's company would be added to those cited by Collins.

Second Endurance

out of the last four games played, thinks that it has at least a fair chance to win the championship of the second half, thereby necessitating a playoff for the trophy, and "Whereas, the four games necessary to complete the second half."

Detoniu India alice WICHITA, Aug. 21.—(A)—The "City of Wichita" took off at 6:11 o'clock this morning on its second attempt to break the endurance flight record. The plane is piloted by Charles Lander and R. O. Rudd.

sion by leaving Sunday school offer for the preaching services begin. Unless hindered by some reason which I can conscientiously give my Lord and Master, we should not leave before church, because the preaching services are just as important as the Bible school lessons," he said.

Sabbath desceration or no respect for God's day whatsoever, is typed under sin of commission by the minister.

"The shows," says Kenneth Copeland, "are not going to close on Sunday as long as people patronize them. There is no use to ask them to, they will not, and neither will the bathing pools and pool clubs, as long as people go there on our Lord's day. Although some pictures are uplifting, it is not gother to the teams no recourse on a previously voted of the league, taking into consideration that the three remaining members of the league, ruled that the three was no recourse on a previously voted of the league, ruled that the three was no recourse on a previously voted of the league, taking into a previously voted of the league, ruled that the three was no recourse on a previously voted of the league to instruct the manual plant while the flumbly as the place of directors. # Race Drivers DEMAN the TIRES WE SELL!

HE Indianapolis 500 Mile Endurance Race is famous as an endurance test and battle of tires for no driver can win this race who has tire trouble. He races over a hot brick track at a speed of 100 or more miles per hour. For eleven consecutive years Firestone Gum-Dipped Tires have been on the winning cars.

FOR years the winner of the hazardous race of Pike's Peak climb -where a slip meant death-used Firestone Gum-Dipped Tires.

- 1. HESE men buy Firestone Tires. They are not paid to use them. The Pike's Peak racers buy the Firestone Super High Speed Gum-Dipped Balloon Tires from local dealers—the world's premier tire which every Firestone Dealer sells. The race track drivers use the same tire, except for the racing tread.
- 2. THESE drivers do not simply choose Firestone Tires. They demand them. They know by experience that this tire never fails. It never fails because it is built not to fail by the special Firestone processes of tire building.
  - (a) Every fibre of cotton thread going into the making of the cord fabric, which is the foundation of the tire, is coated and cushioned in rubber by the Firestone patented Gum-Dipping process.
  - (b) Under the tread is the Firestone patented Gum-Dipped Double Cord Breaker-which means not only two extra plies where most needed, but also sets the Firestone Tire apart as an all cord tire, while others are woven fabric and cord.
- (c) Firestone Super High Speed Tires now have 32% more rubber in the tread, giving deeper grooves that will give you over 50% more non-skid wear before the tire is smooth.

- 3. HESE are not just features. They are basic differences in tire building proved by service on every kind of road and track.
- 4. YOU may never intend to race. You may never intend even to speed. You may never climb Pike's Peak. But, every day whether you know it or not your life depends upon your tires.
- 5. WE HAVE these Super High Speed Gum-Dipped Balloons for sale today. They are the same tires that the racing drivers demand—the premier tires of the world. Their first cost is low. Their cost per mile of service makes them cheaper today than even cheap tires. They are inexpensive, not only because the price of rubber is low, but because we have joined with Firestone to bring into the sale of tires the same degree of efficiency which goes into their manufacture. The benefit of all this is in the price to you.
- 6. DRIVE in today. We will examine your tires and make you an allowance for your unused mileage. We can equip your car with new Firestone Super High Speed Tires at a much lower cost than you ever expected. They will give you unequalled service and satisfaction.

# Beat Drought After It's Over-Uncle Sam

Experts Advise Quick Crops to Recoup Farm Losses-Pool Aid Ideas

By FRANK I. WELLER Associated Press Farm Editor

WASHINGTON, Aug. 21.-(AP)-Emergency food and feed cropsthe best known to the accumulated experience of three of the oldest bureaus in the department of agriculture-have been brought into the immediate foreground of the national drought-relief pro-

Recommendations to be followed as soon as rain softens the heat-nammered field and gardens just

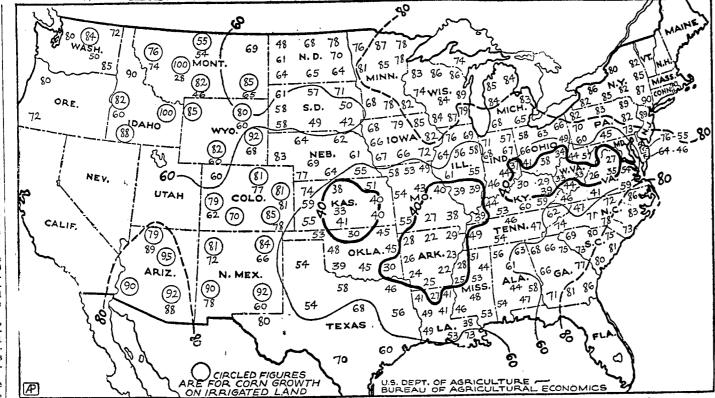

mave been formulated.
They resulted from studies originally instituted for the develop-ment of means to forestall un-necessary depletion of breeding stock where months of relentless sunshine had cut the prospective corn yield to 40 percent of normal and burned up 70 percent of the basture.

pasture.
Fifty Years' Experience Dean of the collaborators, the bureau of animal industry, had 50 years of history to t "n to for suggestions. The bureau of dairy industry, once a part of the animal industry, division had almost the dustry, once a part of the animal industry division, had almost the

same.
The bureau of plant industry, organized in 1902, had rich experiences with effects of the 1901 drought from which to draw re-

drought from which to draw recommendations for food crops
when the drought's persistence endangered more than feed grains.
Concerned first with the more
serious shortage of livestock feed,
the bureaus recommended fallsown pastures, emergency hay
crops and maximum use of roughages to get stock through the winter and early spring. Winter wheat
rye and barley, they said, make
excellent late fall and early spring
pastures.

In many localities these crops can be grazed carefully in winter and early spring, then allowed to mature a grain crop. If properly managed, grazing aids rather

Figures on the map represent the condition of corn as of August 1, this year, on the basis of 100 as a full, or normal crop

much more pasturage than north-crops may be pastured or may be ticularly of immature, drought-cut and fed fresh from the field withered corn.

Corn stubble ground may be prepared quickly and satisfactor-practice known as "soiling."

A simple moisture test recompractice known as "soiling."

rye and barley, they said, make excellent late fall and early spring pastures.

Pasture for Spring.

A 10-year experiment on the government farm at Beltsville, Md., shows that an acre of fall-sown wheat or barley will supply good grazing for 10 mature sheep for 27 days.

Rye provides pasture for 18 days. One advantage of rye is that it is less likely to winter-kill.

In many localities these crops and barley, they said, and a fertilizer applied, by the bureaus can be practice known as "soiling."

Rye and vetch in the northern part of the drought area, and rye, winter oats and vetch in southern said, unter oats and vetch in southern said, winter oats and vetch in southern sections, may be seeded in the fail and cut in the late spring for hay making; or pastured if it is not. The use of vetch should southern part of the drought area, and rye, winter oats and vetch in outself it in half-inch lengths, they said, and weigh out exactly 25 pounds. Oats Good In South

Winter oats may be preferable to rye as a pasture crop in the southern part of the drought area, and rye, winter oats and vetch in the northern part of the drought area, and rye, winter oats and vetch in the northern part of the drought area, and rye, winter oats and vetch in the northern part of the drought area, and rye, winter oats and vetch in the northern part of the drought area, and rye, winter oats and vetch in the northern part of the drought area, and rye, winter oats and vetch in the northern part of the drought area, and rye, winter oats and vetch in the northern part of the drought area, and rye, winter oats and vetch in souther test recom-recombend in the fall and cut in the late spring for hay-making; or pastured if it is not. The use of vetch should souther test recom-recombend in the fall and cut in the late spring for hay-making; or pastured if it is not. The use of vetch should souther test recom-recombend in the fall and cut in the late spring for hay-making; or pastured if it is not. The use of vetch should it in half-inch lengths, th

from a representative field. Cut to sun and rain.

Stack Under 'over

Such roughages as corn fodder and straw should be well stacked A simple moisture test recom-mended by the bureaus can be made with a stalk of corn taken made with a stalk of corn taken

The edible portion of ni sly cur-ed corn fodder compares well with timothy hay as a feed for dairy

and weigh out exactly 25 pounds. Dry thoroughly by spreading a thin layer in the sun, or place in a moderately heated oven, being careful not to char it.

If the dried material weights more than 10 pounds, the corn in the field from which it was taken is t dry to put in the silo without the addition of water.

and dairy cattle. With dairy cattle they should be fed immediately after milking to minimize ob-

jectionable tainting of the milk. Clover Chaff for Feed Soybean straw and sweet cloves chaff have been used to advantage

as emergency feeds. The former fed with shelled corn and linseed meal to sheer at the Ohi experistation, was found to be n one-third as much as clover or alfalfa hav.

Sweet clover chaff, a by-product of the sweet clover seed industry, reduced by 20 percent the cost of wintering a flock of ewe lambs at a government station last year when fed at the rate of two pounds of chaff and 2 1-2 pounds of alfalfa hay per head daily.

With good rains before September, sudan grass, millet and cow-peas may be planted as emergency "catch-crops" for hay; in the south, sorghums and cowpeas and, narticularly in the gulf states, sov-beans. Otherwise they should pro-vide pasture during fall and win-

er.
Whether it rains or not, these pasture crops should be valuable in conserving hay which, at best, the bureaus said, will be scarce in the drought regions.

the drought regions.

Late Planting Tricks

The first good showers will open the fall gardening season in areas of late frosts. In many places bush beans, beets, early maturing roasting ears, eacumbers lettuce, mustard, radishes, spin-ach and turnips are suitable crops

It often is a good practice when planting late, to soak the seed in warm water over night and the following day drain off the water and roll the seed in dry sand or soil to absorb excessive moisture and make them easy to separatin planting. Soaked seed should not be planted in dry soil and seed should be placed deeper and thicker than in spring planting.

Lowly Turnip a Favorite

Probably no emergency crop will be a greater favorite for the turnip—in necessity a staple food for man and beast. The and make them easy to separate in planting. Soaked seed should

In many localities these crops in be grazed carefully in winter a grain crop. If properly larged grazing aids rather ian injures the crop for use as a revested cereal.

# WILD SAYS CUT IN PRODUCTION AGREED TO BY OPERATORS

OLNEY, Aug. 21.—(P)—Claude C. Wild, vice president of the Independent Petroleum Producers' Association of Texas, addressed a gathering of Independent oil operators from the Young, Jack and Archer county felds at a meeting

He said the association had agreed, as a temporary measure, to the state railroad commission's prothe state railroad commission's pro-ration order for a 113,000-barrel daily production cut, because it was feared a price cut in crude oil would result otherwise. "And a price cut in crude at this time would be the death of the small producer," he added. He reiterated the place made at similar meetings the plea made at similar meetings over the state that a tariff on oil imports be imposed, to give domes-tic producers relief from the com-petition of large quantities of foreign oil which he said the major companies were bringing into the United States.

I. D. McAfee says he wants your jewelry busi-ness—all of it.

Two Alleged Car Strippers Arrested

KERENS, Aug. 21.—Constable A. H. Holloway and Deputy Constable Bud Burleson arrested two negroes Thursday charged with the alleged stripping of J. H. Wilkins' automobile one and a half miles east of town in which four thres and four these were taken. One of the actubes were taken. One of the accused negroes pleaded guilty in Judge T. A. Crowley's court and the other plead guilty to the charge after being taken to Corsicana. Both negroes were sent to the county

Constable Holloway recovered the stolen property.

# Kerens Constable Going After Vags

KERENS, Aug. 21.—(Spl).—S.T. Luster, negro, was arrested Wed-nesday by Constable Holloway and Deputy Sheriff Floyd, charged with vagrancy. The accused negro plead guilty before Judge Crowley and was assessed the usual fine. Constable Holloway has made a

determined stand against vags here on account of hands needed by farmers in the fields and has otified them to find jobs or he would not have any trouble getting them jobs with the county. He has had good results so far and says he is going to keep it up until Kerens is rid of them.

WIFE OF SHERIFF
FRUSTRATES JALL
BREAK STINNETT

BREAK STINNETT

STINNETT, Aug. 21.—(P)—Four prisoners escaped from the county igall for a brief interval of liberty today and Mrs. C. O. Moore, wife of the sheriff, prevented the possible escape of a dozen more when she rushed to the jail gun in hand as the prisoners were trying to break out.

The four fugitives were at large only a short time, being caught by a posse consisting of Sheriff Moore and his deputies.

A. D. Fayne, Amarillo wife slayer, was in a cell which was not opened and made no effort to escape.

C. H. Jackson, charged in a cart theft case, pinloned the arms of W. L. Kelly, deputy sheriff, when the officer went to feed prisoners in a large tier of cells called "the tank" at noon. Earl Miller, J. J. Reed and Lloyd Ramsey, held in minor charges, obtained his keys and tried to lock Kelly in a cell, and then ran down three flights of steps through the courthouse.

Mrs. Moore heard the commotion and ran from her apart.

Mrs Moore heard the commo tion and ran from her apartment, gun in hand, as another prisoner tried to complete the incarceration of the struggling Kally carceration of the strugglin Kelly. Mrs. Moore iberated th deputy and halted the jail break.

# To The Voters Of Navarro County:

During the limited time I have had since the first primary it has been impossible to see all the voters of the county in person, I therefore use this method to solicit your vote for me for County Attorney Saturday, August 23rd. I received a vote the first primary that I am proud of, having carried thirty-eight boxes in the county and having a majority of almost two to one over my opponent.

I submit to the voters that I received more votes than all my opponents at Kerens where I was reared, and that I carried all the wards in Corsicana where I now reside. If you see fit to give me your vote this Saturday I assure you that I will live up to the confidence that you place in me by fulfilling the duties of the office to the best of my ability without fear or favor, I am, Sincerely yours

Cleo G. Miller

Second Assistant Superintendent Third Assistant Superintendent

> March 10, 1930. Hon. Robert Lee Bobbitt

My dear Mr. Bobbitt:

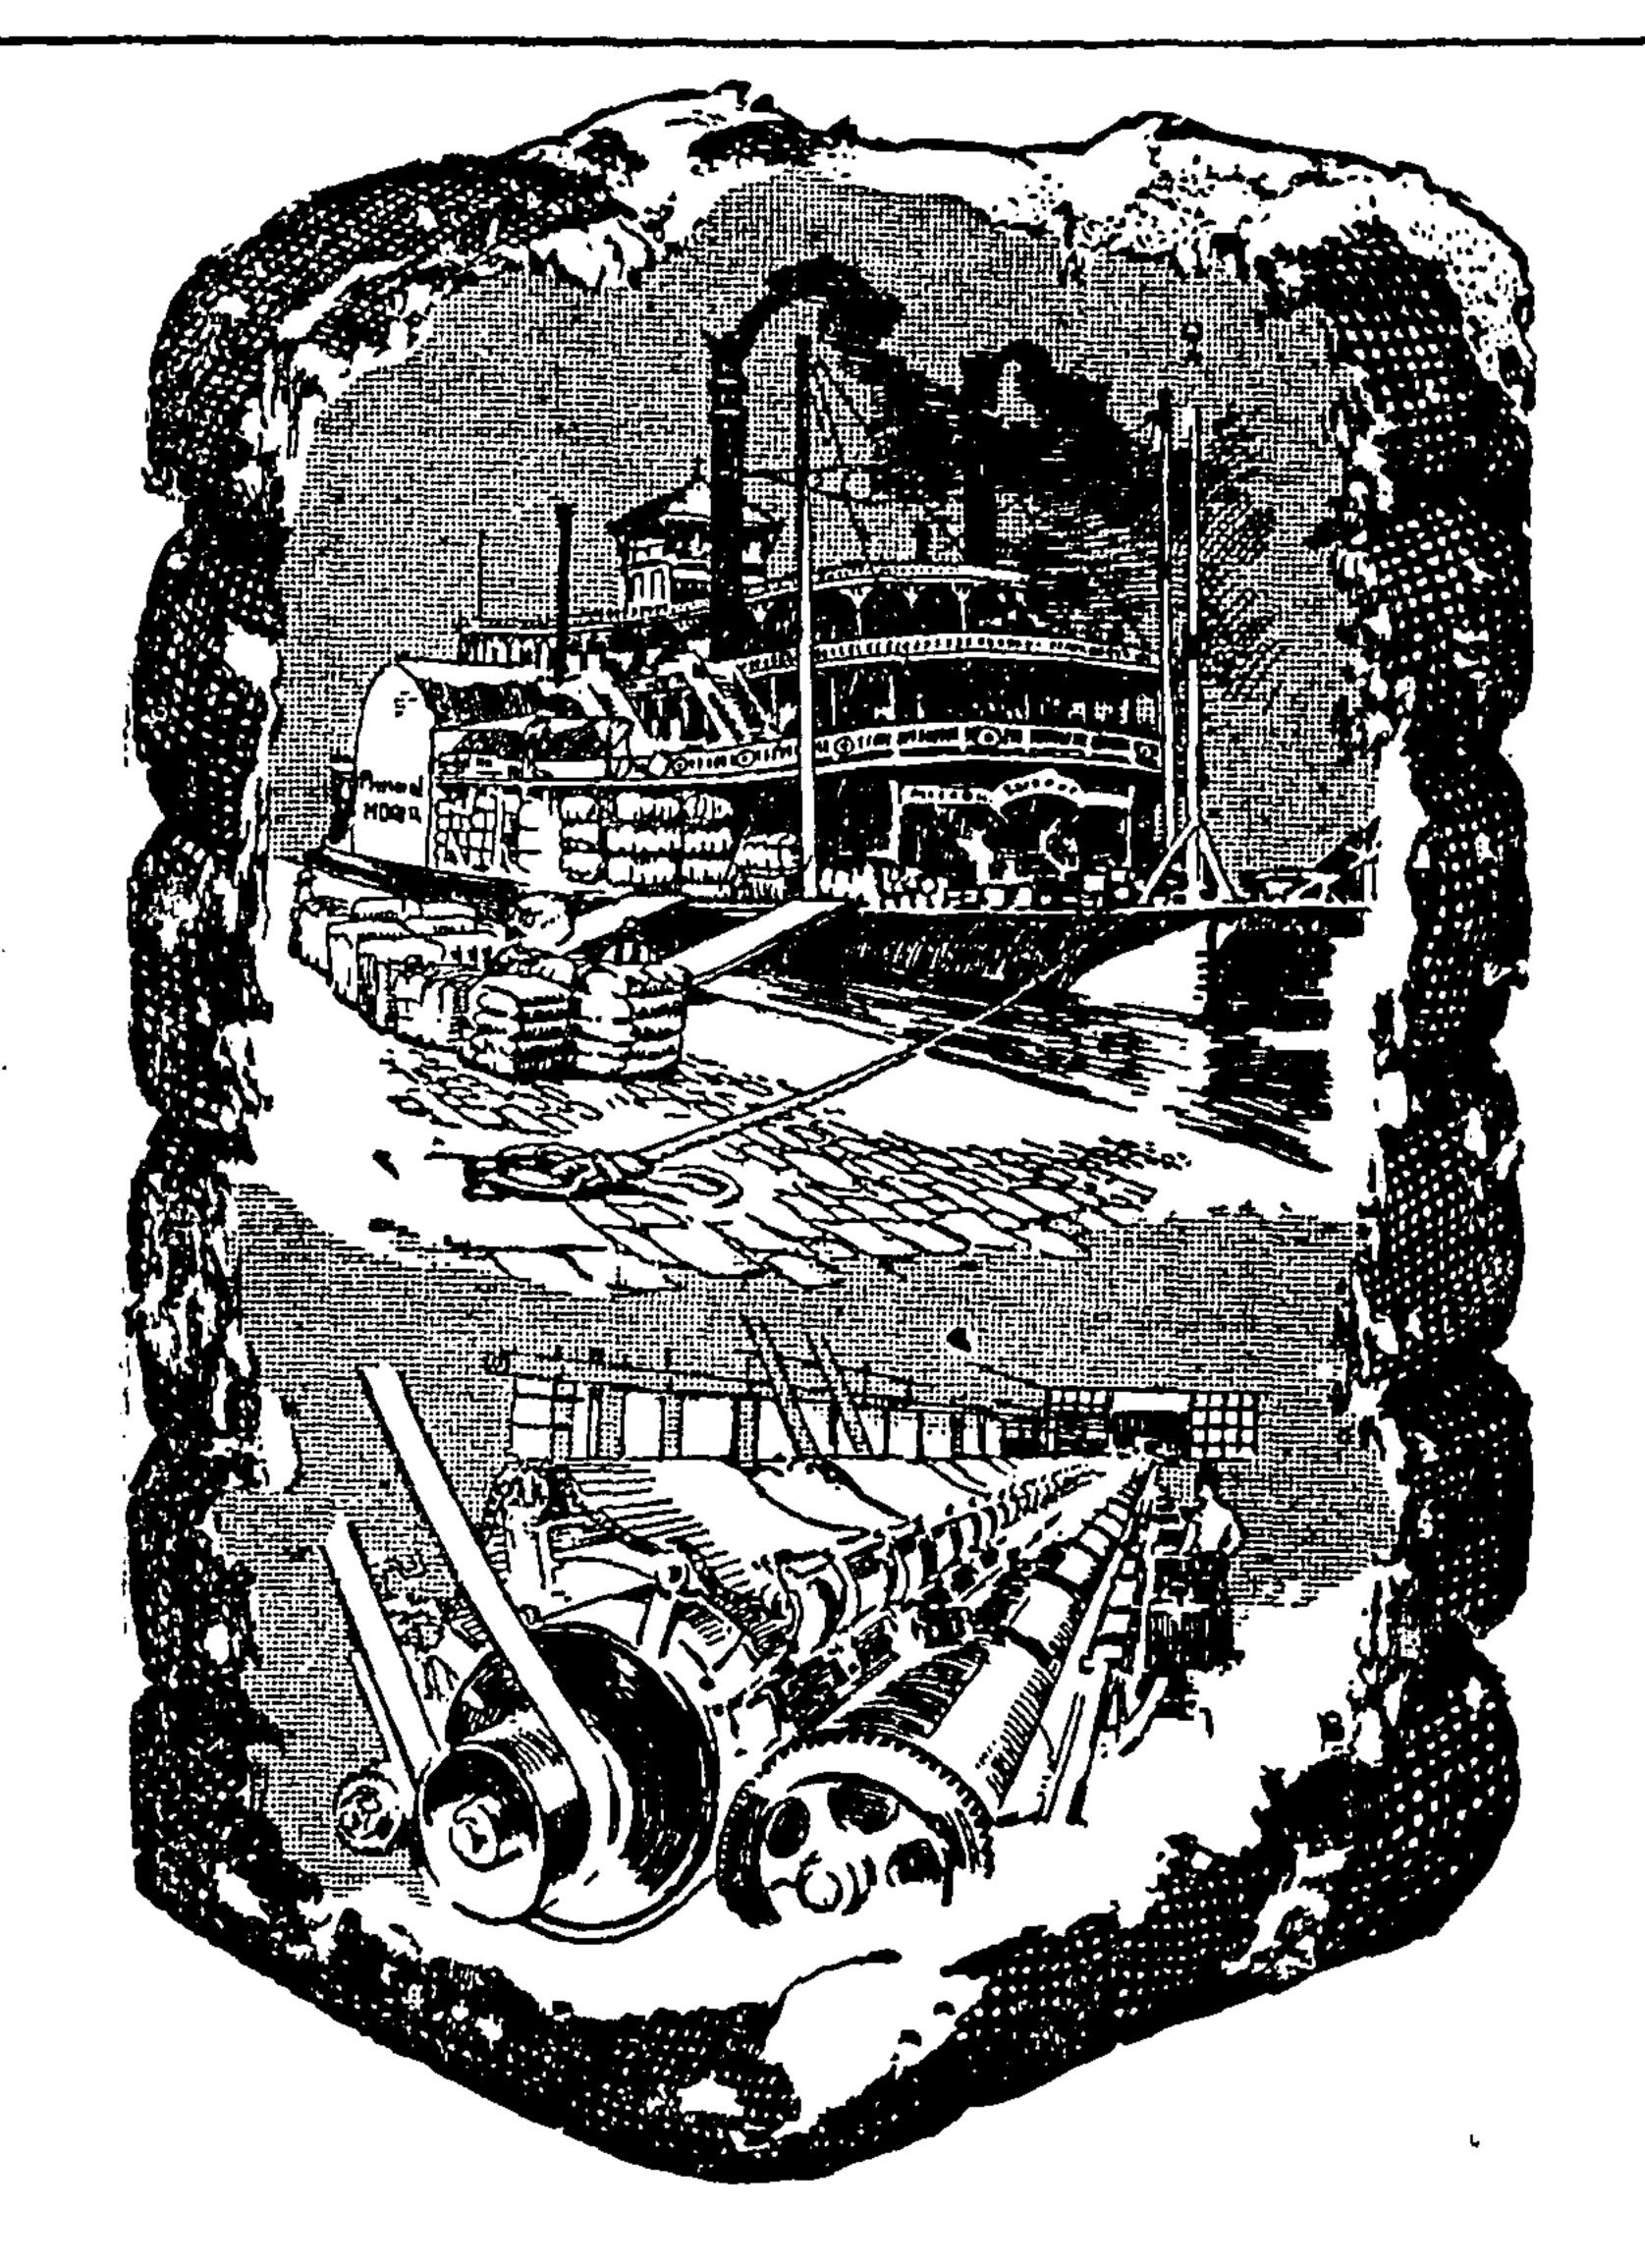

been appreciated by those who are vitally interested in the issue at stake.

As you know, this case involved the interests of more than three hundred thousand school children and should this law have been held to be unconstitutional, it would have been a very serious blow to the efficient administration of public education in Texas. I feel that the successful termination of this suit before the Court of Civil Appeals is due solely to the arduous efforts put forth

With best wishes for your future success, I am, SMNM-lar State Superintendent.

Elect a Capable and Courageous Lawyer

# It's Cotton Picking Time

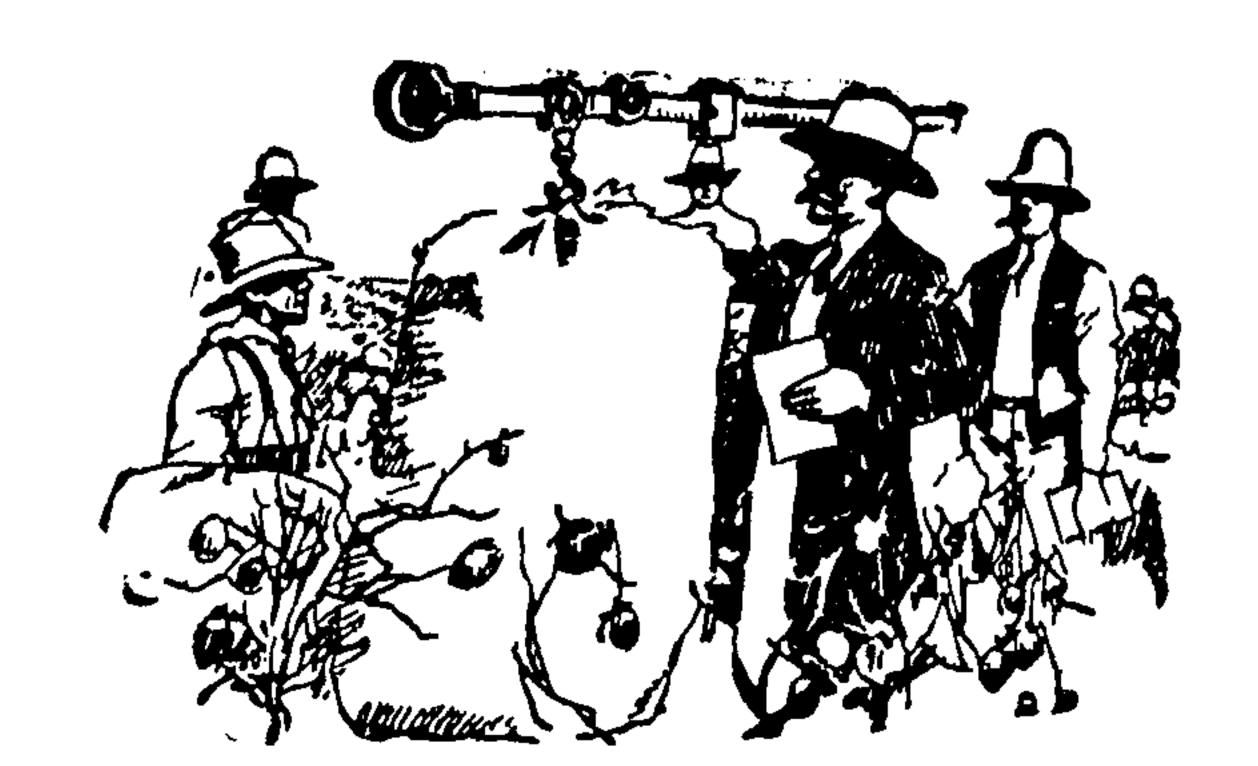

Is Your House in Order for the Coming

# FALL SEASON?

# Cotton Time is Busy Time for Those Who are Up and Doing

Navarro County Will be in First Line Rank In Cotton Production This Year

The best authorities on cotton production announce that Navarro County will make a good cotton crop this year. Their conservative estimate of the cotton crop for this year is around 80,000 bales, without any more rain. If we should get a good general rain in the county the crop will be larger. You know what this will mean Mr. Business Man, so why not get your house in order and be on your tip-toes to get your full share of the coming cotton crop. Now is the time to get busy and make your plans for cotton is already coming in fast. The business will be here for you if you will only make the effort to get it.

# Navarro County Is In Good Condition

Navarro county will be among the few in the first ranks that will make a good cotton crop. This fact is already assured by those who have acquainted themselves with the crop, and through years of f experience in the game know how to judge a cotton crop.

With a substantial feed crop laid by and with the banks of the county claiming that the farmers owe them less than they have for a number of years, means that much of the cotton money will be free from debt and thereby turned loose through the business channels.

From all indications Navarro county will be in better financial condition this fall than any county in Texas, and it will be well to compare our conditions with those of other sections of Texas.

It has the odds in its favor as compared to other big cotton producing counties, and with other sources of revenue from oil, industry and other sources there is every reason to predict a good fall business.

# What Cotton Means To Navarro County

While Corsicana and Navarro county are not solely dependent upon cotton at the same time it is the most important of our livelihood.

The cotton crop this fall will bring into the county many millions of dollars which will be spent in all channels of activity.

While the price of cotton will not be as good as last year---remember that a dollar now will buy more than it has for fifteen years.

Then, too, Coriscana is in the center of a cotton area that will produce aroud 400,000 bales, from which area much money will flow into our community.

Corsicana is the most important cotton center in Central Texas.

# The Election Will Soon Be Over

Let's All Get Down to Business

Begin Now and Go After A Full Fall's Business

# RELIEF COMMITTEE MEETS ADDITIONAL DROUGHT DEMANDS

ALABAMA, TEXAS, WYOM-ING ADDED TO STATES SEEKING ASSISTANCE

WASHINGTON, Aug. 20.—(#?)—President Hoover called the first meeting of his national drought committee for late today at the white house. The meeting is for the purpose of organization and consideration of preliminary steps the drought relief program.

the drought relief program.

In members of the committee except Henry M. Robinson, Los Angeles banker, will attend the meeting.

Governor W. J. Holloway, of Oct. Declaration of Declarati Oklahoma, telegraphed the president today that his state had perfected a state-wide drought comdent today that his state had perfected a state-wide drought committee and was planning county committees, all of which would cooperate with the federal government.

The department of agriculture reported that while rains this

cooperate with the federal government.

The department of agriculture reported that while rains this week had brought material relief to many localities, numerous sections were "largely unrelieved."

Deterioration of the corn crop was said to have been checked in most sections by frequent showers and cool weather, "but material improvement in the development will apparently be limited."

Harvest of small grains is now Harvest of small grains is now in the eastern cotton belt, but continued abnormally high in the west, while local showers were rither general east of the Missis-

stippi river. In the western belt the drought has been mostly in-tensified by continued high tem-peratures and lack of rain. "Moderate to heavy showers occurred during the week over large areas of the more droughty sec-tions of the country," the report said. "These have brought matersaid. These have brought material relief to many localities especially in reviving pasture lands and improving late truck crops and gardens where they were not too far gone, in replenishing stock water, in some areas benefitting

corn belt the crop was so far gone before the rains came that only a limited amount of the late-planted on bottom lands can re-ceive actual benefit, the report continued, while in other consider-

continued, while in other considerable areas only a checking of deterioration is apparent.

Cotton Crop Reports.

"As to the lotton crop, Texas had the highest weekly mean temperatures of the season, with only scattered showers in the west half and a few eastern localities," the weekly report, said.

a few eastern localities," the weekly report said.

"Cotton continued fairly good in
most of the Suthern third," the report said, "but is poor to only fair
in the northern two-thirds, with
increasing complaints of small
plants and bolls, heavy shedding,
premature opening and top blooming in dry sections.

ing in dry sections.
"Oklahoma has had no material relief from the drought and cotton shows further deterioration with plants wilting, shedding and open-ing prematurely and mostly upland

cotton poor to very poor.
"In Arkansas, theer was considerable local rainfall and progress was good on most low lands, but deterioration was reported from ther places, with rapid shedding

report no run-off, said Prof. Hen-ning, but he thought the list had

# **HUMBLE OILERS** MEET JACKSONVILLE

The Humble Ollers of Corsicana will be hosts to the strong Jack-conville Humble nine Sunday afternoon on the Humble diamond located on the Davis lease south of Mildred.

This will be a return game for the one played in Jacksonville last Sunday which the local Ollers copped 8-4. Both teams have been materially strengthened for the contest and a good game should be reeled off.

Among the best known players

on the visiting team are Ben Bed-ford, who for three years played in the Eastern league, and "Jo Jo" in the Eastern league, and "Jo Jo" Rose, 230 pound husky holding down first base position who is batting well over .500 for the season. In the contest last Sunday, Rose whammed out three hits, two singles and a home run.

The game will start at 4 o'clock Sunday afternoon and a large number of fans are expected to be on hand Admission prices for

the contest have been set at 25 cents for adults.

A number of improvements have been made on the Humble diamond for the contest and arrangements are under way to construct a grandstand at the field for the remaining grands. remaining games of the season. The powers that be governing the destinies of the Humble team are endeavoring to match a series of games with the strong Fairfield nine which recently defeated the Streetman team, winners of the Bi-Stone County league, four out of a five game series.

# TREASURY SEES LITTLE HOPE FOR LOWER TAX RATE

WASHINGTON, Aug. 21.—(P)—
Treasury officials see little prospects of maintaining for next year the reduction of one per cent in income taxes which was allowed this year as an emergency measure by congress.

Congressional action, would be month was \$23.62.

gency reduction over another year.

No action is expected to be taken by the treasury in the formulation of the tax policy for next year until shortly before the December session of congress convenes.

# RECEIVERSHIP PLAN FOR JULIAN COMPANY BEEN ABANDONED

OKLAHOMA CITY, Aug. 21.—(P)—W. L. Murphy, assistant attorney general, announced abandonment today of plans to seek a receivership for the oil and royalty company headed by C. C. Julian, former California oil operator now operating in the South Oklahoma City field, for alleged violation of the proration orders of the Oklahoma corporation commission. Instead, Murphy said, the company would be included in citations filed before the commission by the field umpire.

# Many Inmates of Texas Eletmosvnarv Institutions Now

AUSTIN, Aug. 19.— (P)—The State Board of Control reported today that a total of 15,362 inmates were on the rolls of state

ing the month.

Average per capita cost during the month was \$16.77, and the average per capita for eleven months was \$23.62.

# measure by congress. Congressional action would be necessary to extend the emergency reduction over another year. Unless action is taken at the short sassion beginning next December, the tax rates enacted in 1928 would apply on next year's taxes. While the outlook is not regarded as hopeful for the lower tax scale, Secretary Mellon said today it was too early to begin talking with any definiteness about the tax situation. The treasury secretary said no estimate would be made about the future at this time. It was indicated he agreed with the treasury experts that the general business situation just now does not warrant hope for extending the emergency reduction over another year. No action is extended to be take.

making her more inaccessible to the life savers.

Two coastguardsmen bravely descended the face of the overhanging cliff and reported that they distinctly heard the screaming of a woman, apparently imprisoned in the cabin.

Attempt Swim Ashore Fails
The first actual sight of human life aboard the yacht was obtained when the coastguards, who were still trying to reach the vessel, saw a man dive off the deck and attempt to swim for the shore.
The savage seas were too much for him, however, throwing him back repeatedly. Eventually the summer gave up the struggle, sank and was seen no more.
The yacht after that became a total wreck. Today boats from here were searching the sea in the vicinity for any sign of survivors.
There were at least six persons, and possibly more, aboard the Islander when she broke up.
Thowey is a seaport at the mouth of the river of that name, about the first och that near east.
